

جامعه مهندسين و معماران ايراني آمريکايي

**SOCIETY OF IRANIAN AMERICAN ENGINEERS & ARCHITECTS
PRESENTS:**

CUTTING EDGE APPROACH TO INTELLECTUAL PROPERTY AND BUSINESS MATTERS

By:

Dr. Dariush Adli, Ph.D., Esq.,

Dr. Adli is the founder and president of Adli Law Group P.C. His practice is primarily focused on patent litigation, representing high technology companies in the electrical and mechanical arts, including semiconductor, integrated circuit, computer hardware, architecture, software, digital processing, and communications industries. In addition, Dr. Adli's practice includes drafting infringement and validity opinions, counseling and patent acquisition (prosecution) for select firm clients. In recent years Dr. Adli's practice has also focused on inter-partes reexamination proceedings at the U.S. Patent and Trademark Office as a low cost alternative to patent litigation.

Prior to founding his own legal practice, Dr. Adli was the Head of the Patent Group at a large international law firm based in Los Angeles. Before that, he spent many years as Counsel at Hogan & Hartson LLP. He obtained his doctorate degree in Engineering Physics and a bachelor degree in Physics and Electronics from the University of Michigan.

Prior to practicing law, Dr. Adli was a lead scientist at Duke Electric Power Company in Bolton, MA. At Duke, he was a member of a research and development team working on product design. Dr. Adli has authored and co-authored numerous articles, which have been published in national scientific journals, two of which have won national best paper awards.

Time: 6:30 PM
